2.00 - 2.30 **Registration** (Posters should be displayed during this time)

2.30 – 2.40 **Introduction: Melania Capasso**

**Session chair: Fran Balkwill**

2.40 – 3.15 **Manuel Mayr** - King's College London (UK)  
Omics-guided Discovery: From Matrix Proteins to Inflammatory Markers

3.15 – 3.30 **Sara Trabulo** - Queen Mary University of London (UK)  
Preventing metastasis in pancreatic cancer by targeting tumour  
microenvironment-derived secreted factors

3.30 – 3.45 **Satdip Kaur** - St George's, University of London (UK)  
Characterizing the suppressive function of regulatory T cells in patients  
with coronary atherosclerosis

3.45 – 4.30 **Coffee break and poster viewing**

**Session chair: Katuscia Bianchi**

4.20 – 4.50 **Pascal Meier** - Institute of Cancer Research (UK)  
The complex relationship between cell death and inflammation in adaptation  
to tissue stress

4.50 – 5.25 **Henning Walczak** - University College London (UK)  
Cell death and ubiquitin in cancer, inflammation and immunity

5.25 - 6.30 **Drinks and networking - Poster Session**
