London Inflammation Network

Friday 8th January 2016

Lister & Young Seminar Room,
2nd Floor John Vane Science Centre
Charterhouse Square – London.

Organised by: Barts and The London
School of Medicine and Dentistry

Program

2.00 - 2.30 Registration (Posters should be displayed during this time)

2.30 - 2.40 Introduction

Session chair: Fran Balkwill
2.40 - 3.15 Mauro Perretti - Queen Mary University of London
Therapeutic innovation in inflammation - tissue reparative extracellular vesicles
3.15 - 3.30 Javier Redondo-Munoz - University of Manchester
(Wellcome Trust Centre for Cell Matrix Research)
How epigenetic alterations regulate nuclear properties and cell migration in lymphocytes
3.30 - 3.45 Maryam Jangani – Barts Cancer Institute - QMUL
Targeting PI3kinase/mTOR/AKT pathway regulates myeloid cell phenotype and function in the tumour microenvironment

3.45 - 4.15 Coffee break

Session chair: Tom MacDonald
4.15 - 4.30 Lucy Norling - William Harvey research Institute – QMUL
Pro-resolving and cartilage-protective actions of Resolvin D1 in inflammatory arthritis
4.30 - 4.45 Giuseppina Arbore – King’s College London
Autocrine NLRP3 inflammasome activity is critical to normal adaptive immunity via regulation of IFN-γ _ in CD4+ T cells
4.45 - 5.20 Luke O’Neill - Trinity College, Dublin
Metabolic reprogramming in innate immunity and inflammation
5.20 - 5.30 Jamie Davies Centre for Integrative Physiology, University of Edinburgh
The Guide to IMMUNOPHARMACOLOGY: Integration of targets, diseases and therapies into an expert-driven database

5.30 - 6.30 Drinks and networking - Poster Session

Free registration
